

# **New measures due to COVID-19**

**We care about the health and well-being of our clients and collaborators and we are using the following protocols in our operation:**

- **All our collaborators use an anti-fluid mask during the entire tour.**
- **Deep cleaning with Lysol disinfectants in each of our boats, before and after each tour.**
- **All parts of the boat are disinfected: aluminum tubes, console, coolers, benches, compartments, drawers, as well as fishing rods, snorkeling equipment, water toy ropes, surfboards, among others.**
- **Food preparation is properly managed in terms of the cooling and cleaning from our kitchen to the coolers at the boats.**
- **We receive our clients with hand gel for application in the boat. Likewise, we no longer greet our clients with the hand, but only with a verbal greeting and with a distance of 1.8 meters.**
- **All our boats have liquid hand soap and water for constant hand washing for our staff and our clients.**
- **All our boats have at visible locations imagines with explanations of hand washing, sneezing protocol and covid prevention.**
- **We maintain a very strong control of our collaborators, they are not allowed to work with any symptoms of a cold.**

**-We care for you and we care for us-**
